LIQUID CATHAR RILE.

Pleasant Family Physic.

NENTIRELY VEGETABLE preparation, ploasant to the taste, unexcelled in its an antibilious and alterative physic, this medicine HAS NO EQUAL IN THE WORLD.

I have used it constantly in my practice for upwards of ten years in all cases where a good physic and alterative was required, and would not now do without it. It is the Physician's Assistant, as well as the safest family medicine in use. Children drink it with pleasure. It will not nanseate the weakest stomach. It produces no griping, but operates easily, thoroughly, and is sure to eradicate all imparities from the system if it is properly taken. Already thousands of living witnesses are ready to testify to its superior virtues, independent of its purgative and anti-bilious qualities. It has cured the worst cases of Erysipelas in a few days. It is a never-failing cure for Headache, Liver Complaint, Jaurdice, Kidney Complaint, Bilious Fever, Pains in the Side, Back, Breust, and Limbs, Colds, Cramps, Worms, Lumbago, Blotches on the Skin, Pimpies, Cutsneous Eruptions, Obstructions in the System, Constipation of the Rowels, Dizziness, Mercurial Diseases, Pleurisy, Female Irregularities, Bowel Complaints, Ulcers of all kinds, &c. It cicanses by its superior medicinal virtues, the ulcerous humor from the blood and corrupt bile from the stomach, carrying it off through the matural channels; it invigorates the blood and leaves the system healthy. I ask my friends to test the above medicine, and pronounce a vordict as they shall be impressed by the avidence. Those who know me professionally will not doubt its worth.

Since its first introduction, on medicine line attained such wonderful popularity, and its sales have increased beyond the most sanguine hopenor as friends. Neighbors recommend it as a sale and trequalled physic! Physicians carry it with them. Children will take no other after one trial, and parents should use no other in their familes. A Certain Disease.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to these who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make then apper nance, such as alcerated sore throat, diseased nose, necturnal pains in the head and limbs, dimness of sight, deatness, nodes on the shin bones and arma, blotches on the head, face, and extremities, progressing with frightful rapidity, till, at last, the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commisseration, till death puts a period to his dreasful sufferings by sending him to "that hourne from whence no traveller returns." To such, therefore, Dr. Johnston pledges himself to preserve the most inviolable secrecy; and, from his extensive practice in the arst hospitals in Europe and America, he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid disease.

Young Men
Who have injured themselves by a certain practice indulged in when alone—a habit free—actly learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and it not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.
What a pity that a young man, the hope of his country, and the darling of his parents, should be matched from all prospects and enjoyments or use, by the consequences of deviating from the part of nature, and indulging in a certain secret habit.

nature, and indulging in a certain secret habit. Smeb persons, before contemplating.

Should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection, that the happiness of another becomes blighted with our own.

The many thousands cored at this institution within the last fifteen years, and the numerous important Surgical Operations performed by Dr. Johnson, witnessed by the reporters of the papers, and many other persons, notices of which have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

TESTIMONY FROM NORTH CAROLINA.

TESTIMONY PROBE NORTH CABOLINA.

Ortificate of Dr. W. Smith, of Pine Hill, Rich mond Goverty, North Gerolina.

DEAR SIR: I have been a subject of Dynoppia, in its worst form, for the last five years. Seen was my condition for twelve months that the physicians and all who saw me said I must die. While in this condition, I was carried to the watering places in Virginia, Tennessee, and North Carolina, but was not benefited by any water to which I was taken. Walle on my way home, I stopped a week at Buthariordton, a small village in North Carolina, to try the effect of some Chalybeats water in that place. About the last of the week I wentinte a drug store to get some medicine for my child and myself. There were several of the village physicians in the store, and one of them seemed to take some interest in my case, and, after asking me some questions, said he had been a dyspectic, and had been greatly benefited by the tise of "Hoofand's German Bitters," prepared by you, and he insisted that I would try the Bitters. He also called the next day at my room, and insisted so much that I would try them that I asked him to get me one bottle. He did it, and I commessed taking it as directed, and I was more benefited by it than all the water and medicine I had ever taken.

After reaching home, one of my neighbure came to me for a prescription and medicine, (he a dyspeptic,) and I gave him nearly all the Bitters I had left, which effected much good in his case. He has often called on me for more of the same kind of medicine, was more benefited by it than any other he had taken, but I have not been able to get any more for him or myself since. Will you therefore, pleins ship me a dose or more as soon as possible.

D. R. Hocker, Roger's Store, Wake county, North Caroline, October 24, 1868, says;

"Having experienced very great benefit from the use of Hoofiand's German Bitters, in Caronic Dysentery and Functional Darangement of the Liver, and its concomitant evils, I am desirous of obtaining a quantity of it for the benefit of my community. You will, therefore, please send a lot, &c."

It is only necessary to say, that after very many years of experience, and being fully conversant with all of the various kinds of Stoves which have been invented on the down-draft inciple, that I have taken advantage of every well-wave improvement that has from time to time been made particularly in reference to the formation and construction of the flues, which are always necessary to be large, and I have fully applied every improvement and combined them all in the "Sanvise Air-Tight Cocking Stova." This Stove is made very heavy, and is a good substantial article; I have made them extra heavy in all the parts where long experience has proved it to be important, and I can assure my summer that I have spared neither pains norexpense in getting it up; and it will not be excelled by any stove now known of a similar character; I am convinced that it will at once become a standard Stove.

I have fully tried them in every way, with WOOD and COAL, and strongly recommend them to the public. They operate in the most satisfactory manner.
